WHY CHOOSE TCL

Built Different From the Ground Up

Five things that set TCL apart from big-box suppliers and one-size-fits-all shops.

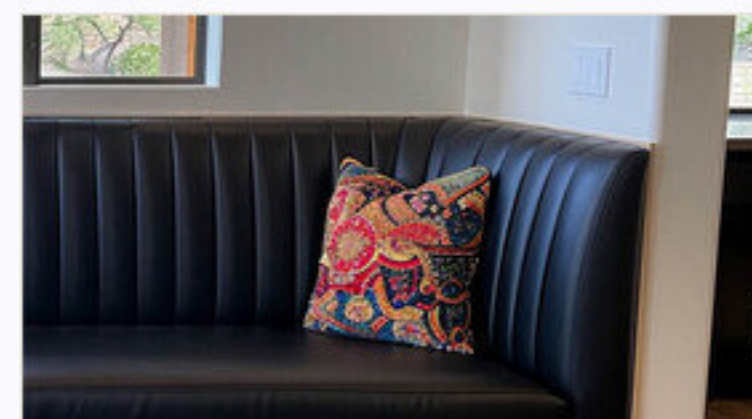

01 Real Photos, Not Renders

Every image in this catalog is our actual work in real restaurants and bars, not a computer rendering.

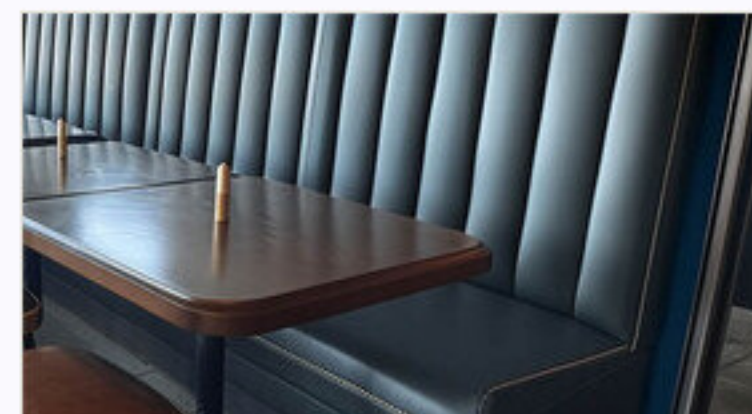

02 Fast Turnaround

As quick as one week for our Essential tier, and 15 to 21 days for Select, without cutting corners on quality.

03 Built In-House, Locally

Every piece is designed, built, and finished in our own Glendale, Arizona shop, start to finish.

04 No Middlemen

You work directly with the people building your furniture, from your first quote to final installation.

05 Warranty on Every Tier

2 to 5 years of structural and upholstery coverage, in writing, on every project we build.

Every project starts with a conversation, not a catalog number. Let's talk about yours.

OUR MOST POPULAR SHAPES

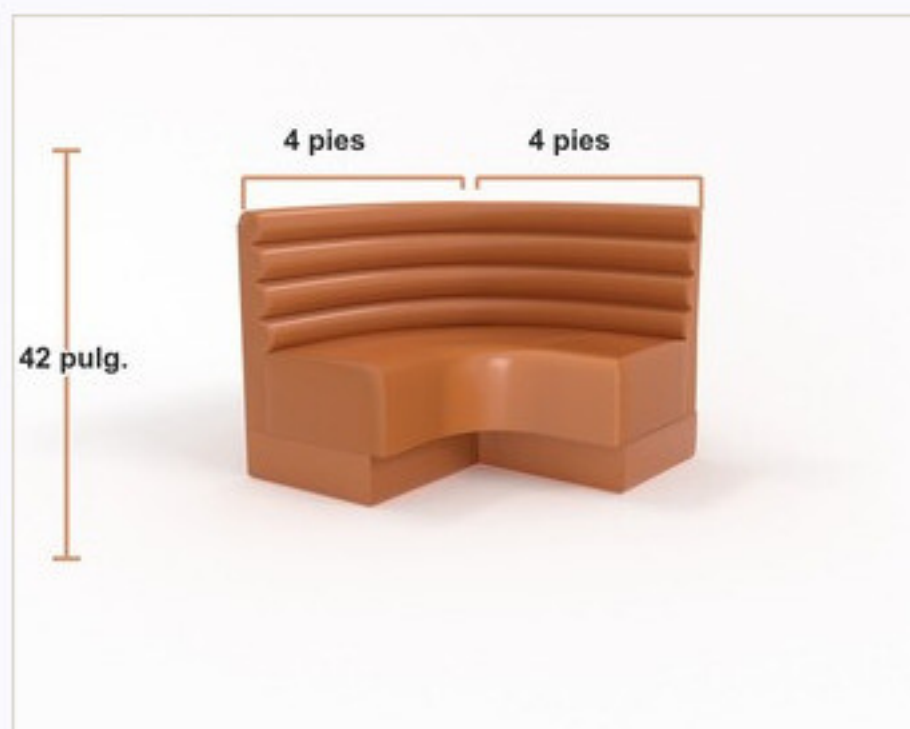

Three Shapes, Built to Fit

The three configurations our clients request most often, shown with our standard dimensions.

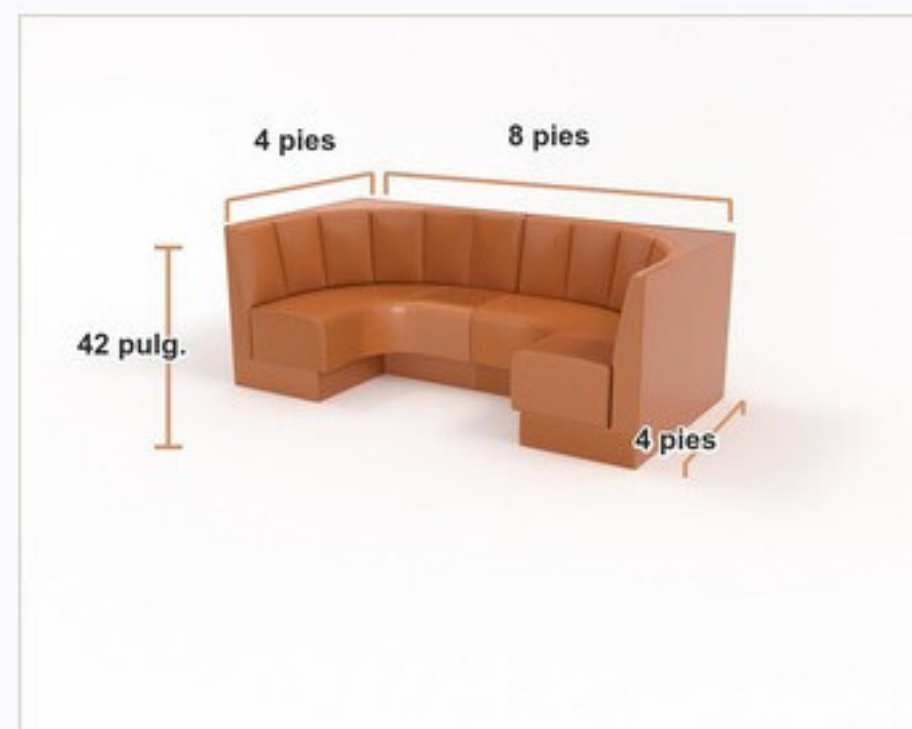

Straight Booth

Best for a flat wall or between two walls.

Corner Booth

Best for corner nooks and L-shaped layouts.

Curved Booth

Best for round tables and large parties.

MORE CONFIGURATIONS

Beyond These Three Shapes

Need something in between? TCL Select offers custom corners and configurations, and TCL Reserve offers completely free-form dimensions, curves, and designs, built around your exact floor plan.

MATERIALS & FINISHES

Built With Trusted Names

Commercial-grade vinyl and fabric, ready for daily restaurant and bar traffic.

DENALI VINYL

50+ Colors

High-traffic commercial vinyl, easy to clean and built to last.

CHARLOTTE FABRICS

Thousands of Patterns

Since 1952 - velvets, chenilles, and Crypton stain-resistant fabrics.

SUNBRELLA

High-Performance Fabric

Fade- and stain-resistant, ideal for patios and heavy-use areas.

FRAME & BASES

Built to Last From the Inside Out

Commercial-grade wood inner frame across every tier

Choice of base: wood, laminate, or matching upholstery

With TCL Reserve, a fully custom base: material, shape, and finish

Commercial-density foam that keeps its shape through daily use

Have your own material in mind? We work with customer-supplied fabric and vinyl too.

These guys got it done for me! They did great and the product came out looking good, and you get a 1-year warranty on top of that! I recommend anyone in the valley to them.
